Giving from the heart to help others

Summer 2017

Milestones and Great Accomplishments: Supporting Education Endeavors...

There are so many milestones in our lives in which we accomplish, our first words, our first steps, etc. The list is countless, filled with many cherished memories that we carry through our life time, moments and memories that have guided us to continue to strive to be who we are today.

High School has been a part of the great adventure, the amazing journey into adulthood. We have learned from our peers, our fellow teachers, and administrators, and so many more who have shaped us and shaped us for the better. Graduation, a day many thought would never come, came quicker than one would have thought. It was a bitter sweet moment because it meant leaving what has been known to start the unknown, to embark on a new adventure to continue the amazing journey.

The Bath High School Senior Class gathered together for one last meal. During the senior breakfast, a heartfelt prayer was spoken and God's presence could be felt during this emotional day. Presenters, one by one, stood strong at the podium to honor loved ones, sharing stories in hopes to instill values to the students and honor students who have upheld the attributes of their loved ones.

Carl Hunlock, Executive Director of the Kyle's Heart Foundation, spoke from the heart in honor of what the Kyle's Heart Foundation upholds; courage, leadership, and heart. His hope for not only the class of 2017, but for all of us, is to remember to have the courage to embrace life's challenges, lead to inspire others towards unity, and have heart and compassion for all. Through this powerful message, the take home was all about God, His influence, and to remember to "Hear what is in your head, but most importantly, hear what is in your heart."

Congratulations to the recipients of the Kyle's Heart Foundation Scholarship: Jenna Davis, Bo Gross, Andrew Reynolds, Kennedy Metcalf.

We wish the class of 2017 much success as they continue to influence and impact the future on this amazing journey.

(Bo Grossman, Andrew Reynolds, Jenna Davis, Kennedy Metcalf)

Stretching Out and Reaching for the Apollo Stars

For the past 11 years, the Kyle's Heart Foundation has continued to gift scholarships to the Bath Community during the senior breakfast. It's been a long standing heart felt tradition to give back to the community who has impacted and shaped us as we have been so grateful for the strength, leadership, and wisdom that Bath High School has instilled in the youth. We will continue to give and honor the attributes we and this community hold high.

As we continue to grow, we want to continue the journey and continue impacting the community to serve and be committed towards enriching and furthering educational endeavors. This year we have continued to stretch our hearts, extending our reach to impact more in the North West Ohio community.

This year we expanded our gifting to the Apollo Career Center, an institution that has provided the community with education and career training. We received four applications for the Kyle's Heart Foundation Scholarship. All applicants were exceptional, making it a difficult decision, but one in which we felt a great honor to award. This year we were excited to present the "first" Kyle's Heart Foundation Scholarship at the Apollo Career Center to E'Nautica Crockett. Ms. Crockett exemplifies all the qualities and attributes of the Kyle's Heart Foundation, the courage to step out and pursue her dreams, strong leadership skills within the school and community, and a deep compassion for those around her.

We wish the 2017 Apollo Career Center graduates much success as they strive to continue to reach for the stars and inspire, influence, and impact others.
